PRIME ANNUAL REPORT ON PUBLIC ISSUES OF 2025-26

There is so much you would like to know about the primary capital market but have not been able to get the desired information. The **PRIME ANNUAL REPORT** is here to provide you all the information about all the issues. For example, it will help you...

Understand the structure of the capital market
The Report provides extensive analysis by size of issue, instruments, underwriting pattern and a host of other data.

Know more about the organisations who are involved in marketing new issues
The Annual Report provides you with ranks of every organisation involved in the marketing of new issues. Detailed lists of issues handled by each of them are also provided. The report will help you select the right team of merchant bankers, brokers, underwriters, registrars, printers, advertising agencies, solicitors and bankers. When dealing with any of these organisations, you will know exactly their status in the industry.

Know how the market responded to public issues
The Report provides detailed response data of every public issue of 2025-26. The data is also provided on an industrywise basis. Number of applications received by each company is also tabulated.

Know where does the money come from
The Report provides citywise and statewise response to issues of the year. Geographical biases, if any, are also identified. This data will help you with your media and conference planning.

...and a host of other data relating to all public issues which opened between 1st April 2025 and 31st March 2026.

PRICE: Rs. 37,000.00
